Assembly Instructions

Important

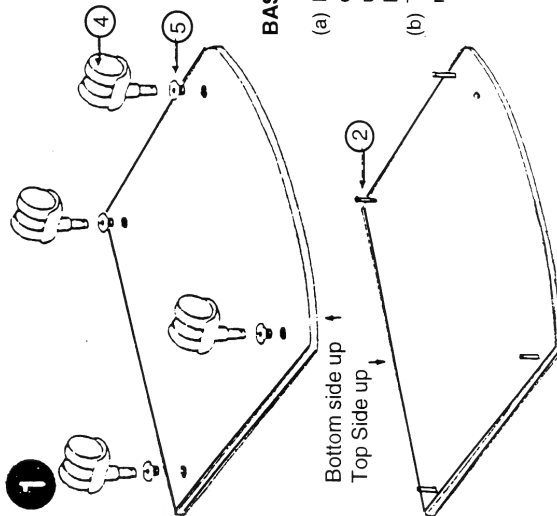

Read these instructions carefully before attempting to assemble the cabinet. This can save time and prevent possible damage during assembly. Assemble the cabinet on carpet or other soft surface.

Tools Required for Assembly

The tool needed for assembly is a Phillips No.2 screwdriver and a hammer.

Cleaning Instructions

To clean the cabinet gently wipe with a damp lint free cloth. Wring cloth well before wiping. When dried, wipe once again with a dry cloth to remove any fibres that remain.

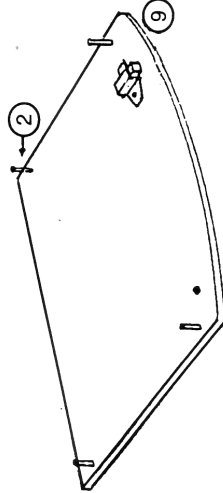

FITTINGS

Item	Description	Qty	Item	Description	Qty	Item	Description	Qty
1	Housing	12	4	Caster	4	4	Striker Plate	1
2	Metal Dowel	12	5	Top Hat	4	5	Hinge	1 pr
3	Screw #4x1/2	10	6	Shelf Stud	4	6	Magnetic Catch	1

2

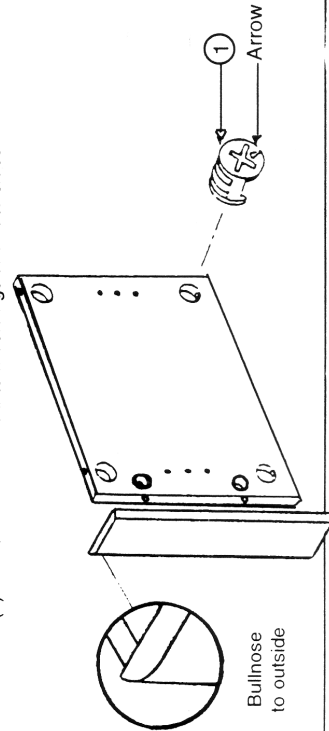

- Place the top on a flat surface and screw in 4 metal dowels.
- Screw the magnetic catch in place using 2 4x1/2 screws.

SIDES

3

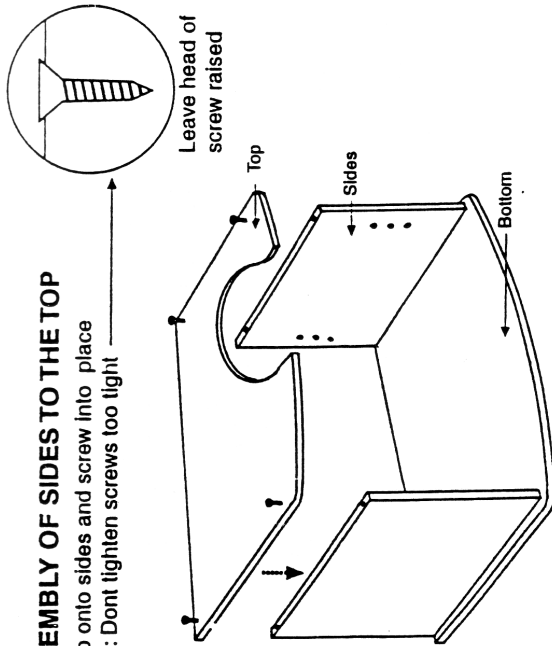

- Place housings in holes on sides with arrow pointing to edge
- Screw metal dowels into mouldings and fit to sides

4

ASSEMBLY OF SIDES TO THE TOP

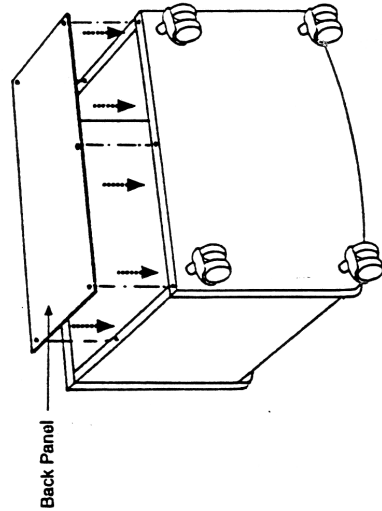

- (a) Fit top onto sides and screw into place
*Note: Don't tighten screws too tight

- (b) Knock cover caps onto heads of screws on top of cabinet.

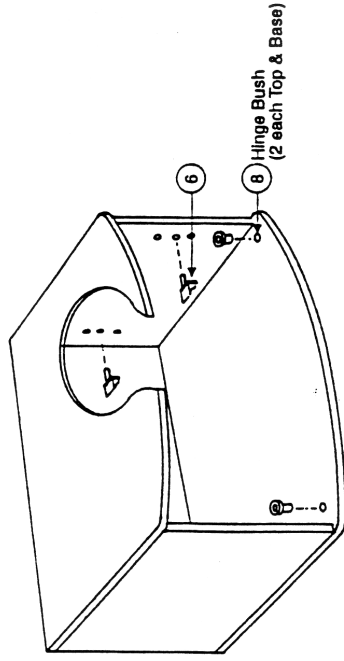

5

- Turn cabinet onto front and screw back onto base and sides with 5 4x1/2 screws.

6

- Turn the unit over, fit the shelf studs into the holes provided on the sides. Place the shelf on the studs, push hinge bushes into holes in top and base.

7

- Locate hinges into bottom bushes. Slide glass into hinge and place top hinge into bush, then fit glass into top hinge. GENTLY tighten grub screws. Repeat this step for other door. Adjust and position glass doors evenly. Fit striker plates with packer paper off and stick in position onto door in front of push latch.
